### Class Activity 1

Plan a weekend gateway to Murree....

..... document your planning process in your notebook..

Q1:- How can you break down the trip planning process into smaller, manageable tasks?

Ans:- . Decide dates

- Arrange transport

- Book hotel

- Pack clothes

- Make budget.

→ This is decomposition because we split the trip into smaller tasks.

Q2:- What patterns can you identify from your past travel experiences?

Ans:- . Always need budgeting

- Transport & stay are first

priority

- Meals/ snacks required

- Transport and stay are first

priority

→ This is Pattern Recognition because we use common travel patterns -

Q3:- what are essential elements to consider when planning a trip?

Ans:-

- Dates and duration
- Budget
- Transport
- Packing

→ This is abstraction because we focus only on important details.

Q4:- How can you create a step-by-step plan to ensure a successful trip?

- 1) Decide dates
- 2) Fix budget
- 3) Arrange Transport
- 4) Book hotel
- 5) Pack Essentials
- 6) Food
- 7) Return

→ This is algorithm design because it is a step-by-step plan.
